Statements that are not historical facts, including statements about Fang's beliefs and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties. A number of important factors could cause actual results to differ materially from those contained in any forward-looking statement. Potential risks and uncertainties include, without limitation, whether the transactions contemplated by the restructuring of Fang's assets and businesses will receive the requisite approvals, whether such restructuring will be carried out as planned, the impact of such restructuring on Fang's assets and businesses, the impact of Fang's transformation from a pure Internet information platform to a transaction-oriented platform, the impact of Fang's implementation of a "zero tolerance policy" that has resulted in dismissal of employees, the impact of the slowdown in China's real estate market on Fang and the impact on revenues of our existing and new service fees reductions, the ability of Fang to retain real estate listing agencies as customers during challenging economic periods, the success of Fang's new business initiatives, the ability of Fang to manage its operating expenses, the impact of, measures taken or to be taken by the Chinese government to control real estate growth and prices and other events which could occur in the future, economic challenges in China's real estate market, the impact of competitive market conditions for our services, our ability to maintain and increase our leadership in China's home related internet sector, the uncertain regulatory landscape in China, fluctuations in our quarterly operating results, our continued ability to execute business strategies including our SouFun membership services and SouFun Online Shop, our ability to continue to expand in local markets, our reliance on online advertising sales and listing services and transactions for our revenues, any failure to successfully develop and expand our content, service offerings and features, including the success of new features to meet evolving market needs, and the technologies that support them, the quality of the loans we originate and resell and the performance of those loans in the future, our ability to successfully service and process customer loans for our own benefit and for the purchasers of those loans and, should we in the future make acquisitions, any failure to successfully integrate acquired businesses.

About Non-GAAP Financial Measures

To supplement Fang's consolidated financial results presented in accordance with United States Generally Accepted Accounting Principles ("GAAP"), Fang uses in this press release the following measures defined as non-GAAP financial measures by the United States Securities and Exchange Commission: (1) non-GAAP operating (loss)/income, (2) non-GAAP net (loss)/income and (3) non-GAAP basic and diluted (loss)/earnings per ordinary share and per ADS and (4) adjusted EBITDA. The presentation of the non-GAAP financial information is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. For more information on these non-GAAP financial measures, please see the table captioned "Reconciliation of GAAP and non-GAAP Results" set forth at the end of this press release.

Fang believes that these non-GAAP financial measures provide meaningful supplemental information to investors regarding its operating performance by excluding share-based compensation expenses and the related tax effects, realized gain on available-for-sale security, interest income and expenses, income tax expenses, and depreciation expense for the three months ended June 30, 2016, which (1) may not be indicative of Fang's recurring core business operating results or (2) are not expected to result in future cash payments. These non-GAAP financial measures also facilitate management's internal comparisons to Fang's historical performance and assist its financial and operational decision making. A limitation of using these non-GAAP financial measures is that share-based compensation, interest income and expenses, income tax expenses, and depreciation expenses have been and will continue to be a significant recurring expense that will continue to exist in Fang's business for the foreseeable future. Management compensates for these limitations by providing specific information regarding the GAAP amounts excluded from each non-GAAP measure. The accompanying tables have more details on the reconciliation between non-GAAP financial measures and their most directly comparable GAAP financial measures.
